

{ FALL 2011 }
ISSUE 1

Agway Energy Services offers value, flexibility and convenience for your home and business, as well as the valuable protection with our Home Heating Repair Program.

Save Money and Energy This Winter

Take the chill out of your winter energy bills with these money-saving tips.

- Turn down your thermostat! Save 5% on your heating costs for every degree you lower your heat. Install a programmable thermostat (find one at your local hardware store) to save even more!
- Turn your water heater down to 120 degrees to save 7-11% off your water heating costs (water heating accounts for about 13% of home energy costs).
- Remove your window-unit air conditioner or insulate it from the outside with a tight-fitting cover.
- Improve the efficiency of your heating system by 20% by insulating and sealing all exposed furnace air ducts, connections and vents. You may be entitled to receive a rebate or tax credit (contact us for more information).
- Replace an older refrigerator with an ENERGY STAR model and use half the amount of energy (refrigerators use more electricity than any other home appliance).
- Replace traditional light bulbs with ENERGY STAR-qualified CFLs to save 75% on your lighting costs (and CFL bulbs last up to 10 times longer!).
- Install low-flow showerheads and faucets to save 10-15% of your water heating costs.
- When using your clothes dryer, avoid the sanitary cycle which uses significantly more energy.
- Use cold water to wash clothes when you can to reduce your washer's energy use by 75%.
- Use a programmable timer when using holiday lights to save electricity.
- Utilize the sleep/standby mode on your computer, laptop and printer to save electricity (using a screen saver does not save energy).

Home Heating Repair Program

Safeguard your family's comfort and enjoy worry-free heating protection.

Included **at no additional cost** with the purchase of your home's natural gas supply from Agway Energy Services is our Home Heating Repair Program that provides you with worry-free heating protection.

Heating system breakdowns always seem to happen at the worst possible time. And while older units are more likely to break down simply due to age, newer units utilize sophisticated technology which often means high replacement costs. Thankfully, with the **free** coverage included with Agway Energy's Home Heating Repair Program, when you're faced with a heating emergency, just call us and we'll do the job right and do it right away.

If you have a problem with your heating unit, one of our professional technicians will come and make the repair at **no additional charge**. Plus, trusted emergency service is available 24-hours a day, 7 days a week by calling us at **1-888-982-4929**.

IT PAYS TO PROTECT

- **24-HOUR EMERGENCY SERVICE**
Our team of technicians is on call any time of the day or night to handle your heating emergency needs. And there are no additional charges for after hour calls.
- **REPAIR COVERAGE**
Our plan covers the full cost of most major parts. Labor to replace covered parts is also performed at no charge.
- **UNMATCHED EXPERTISE**
Our professionals are thoroughly trained on all major brands of heating equipment. They'll deliver fast, first-rate service to your satisfaction no matter what the situation.

This program is available for your primary residential natural gas heating equipment. Older units may be subject to inspection prior to coverage due to age and/or obsolescence. To see the full listing of parts and labor coverage, visit www.agwayenergy.com.

Moving? Take Us With You.

We provide energy to customers throughout New York and Pennsylvania. If you are an existing Agway Energy Services customer and are planning to move in the near future, please give us a call at **1-888-982-4929**.
